SYM2-24X24S2-SG Symphony I/O Mk II Soundgrid 24 x 24	APO0082	RRP: £5,415.83
SYM2-32X32S2-SG Symphony I/O Mk II Soundgrid 32 x 32	APO0083	RRP: £6,249.17

Symphony I/O Modules

A2X6 2x6 Analog I/O + 8x8 Optical + AES I/O Module

Analogue I/O module for Symphony MkII. Two balanced inputs on XLR and six balanced outputs on DSUB 25-pin connector. Also provides stereo AES input & output on XLR, two channels of S/PDIF I/O (192kHz) on RCA and one set of optical I/O ports which support: 8 channel ADAT @ 44.1/48kHz, 4 channels SMUX ADAT @ 88.2/96kHz or 2 channels of S/PDIF @ 192kHz.

A2X6 2x6 Analog I/O + 8x8 Optical + AES I/O Module	APO0026	RRP: £1,232.50
--	---------	----------------

Symphony I/O Mk II 2x6 SE Module

Apogee Symphony I/O Mk II 2x6 Special Edition offers the highest quality AD/DA conversion of the Symphony series. Designed specifically for mastering engineers whose critical work demands ultimate sonic performance, 2x6 SE takes advantage of the latest advancements in digital and analog audio technology to offer inputs with 124 dB (A) of dynamic range, THD+N of -116dB and outputs with 131dB (A) dynamic range and an astonishingly low THD+N of -118dB.

Symphony I/O Mk II 2x6 SE Module	APO0086	RRP: £1,665.83
----------------------------------	---------	----------------

8x8S2 8x8 Analog I/O + 8x8 AES/Optical I/O (Mk II) Module

8 analogue I/O plus 8 EAS/optical I/O for Symphony MkII. Eight balanced inputs and eight balanced outputs on DSUB 25-pin connectors. Eight AES-EBU inputs and eight outputs on DSUB 25-pin connectors (192k single wide compatible). Optical I/O supports 8 channels ADAT @ 44.1/48kHz, 8 channels SMUX @ 88.2/96kHz or 2 channels S/PDIF at 192kHz. (Dig I/O hardware switch selects AES or Optical digital I/O format) Two channels of coax S/PDIF I/O at up to 192kHz.

8x8S2 8x8 Analog I/O + 8x8 AES/Optical I/O (Mk II) Module	APO0027	RRP: £1,957.50
---	---------	----------------

16x16S2 16 x 16 Analog I/O (Mk II) Module

16-in, 16-out analogue card for Symphony MkII. Provides 16 balanced inputs and 16 balanced outputs on DSUB 25-pin connectors, plus coax S/DIF on RCA connectors.

16x16S2 16 x 16 Analog I/O (Mk II) Module	APO0028	RRP: £2,832.50
---	---------	----------------

A8MP 8 Channel Mic Preamp Module

Mic preamp card for Symphony MkII. Eight digitally controlled mic preamps with 85dB gain, four Hi-Z instrument inputs, selectable 48v phantom power, Soft Limit and phase invert. Eight balanced software assignable analogue insert points on DSUB 25-pin connectors. Requires the 8x8 MkII module to be installed in the Symphony MkII's other module slot.

A8MP 8 Channel Mic Preamp Module	APO0029	RRP: £1,374.17
----------------------------------	---------	----------------

Symphony I/O MkII Thunderbolt Card

Thunderbolt option card for Symphony I/O MkII chassis. Adds Thunderbolt connectivity to PTHD systems.

Symphony I/O MkII Thunderbolt Card	APO0054	RRP: £915.83
------------------------------------	---------	--------------

Ensemble

Ensemble

Thunderbolt 2 audio interface provides superior sound quality, low latency performance and the most comprehensive studio functionality all in one box. Features legendary Apogee AD/DA conversion up to 24-bit/192kHz, 8 Advanced Stepped Gain™ mic preamps, monitor controller functionality, omnidirectional condenser talkback mic on front panel, front panel Guitar I/O, two headphone outputs and digital connectivity for a total of 30 x 34 I/O. Supports ADAT, SMUX & S/PDIF. Sabre32 DAC offer full 32-bit playback.

Ensemble	APO0010	RRP: £1,999.17
----------	---------	----------------

Element Series

Element 24

10 In x 12 Out Thunderbolt audio I/O box for Mac. AD/DA conversion for recording up to 192kHz/24-bit. Two analogue combi inputs with world-class mic preamps and selectable 48v phantom power for connecting microphones, instruments or line-level devices. Two balanced L/R XLR outputs and one 1/4" stereo headphone output. Optical I/O supports ADAT, SMUX & S/PDIF. Element Control software provides all control of hardware parameters including input gain, output level and low latency monitoring. Element Control Mobile App provides wireless remote control of hardware via iPhone, iPad or iPod touch. Works with Apogee Control – Optional desktop hardware remote control (Sold separately). Multi-unit Thunderbolt support.

Element 24	APO0057	RRP: £457.50
------------	---------	--------------

Element 46

12 In x 14 Out Thunderbolt audio I/O box for Mac. AD/DA conversion for recording up to 192kHz/24-bit. Four analogue combi inputs with world-class mic preamps and selectable 48v phantom power for connecting microphones, instruments or line-level devices. Two balanced L/R XLR outputs and two 1/4" stereo headphone outputs. Optical I/O supports ADAT, SMUX & S/PDIF. Element Control software provides all control of hardware parameters including input gain, output level and low latency monitoring. Element Control Mobile App provides wireless remote control of hardware via iPhone, iPad or iPod touch. Works with Apogee Control – Optional desktop hardware remote control (Sold separately). Multi-unit Thunderbolt support.

Element 46	APO0058	RRP: £749.17
------------	---------	--------------

Element 88

16 In x 16 Out Thunderbolt audio I/O box for Mac. AD/DA conversion for recording up to 192kHz/24-bit. Eight analogue inputs, four with world-class mic preamps and selectable 48v phantom power for connecting microphones, instruments or line-level devices. Two balanced L/R XLR outputs, two balanced 1/4" outputs and two 1/4" stereo headphone outputs. Optical I/O supports ADAT, SMUX & S/PDIF. Element Control software provides all control of hardware parameters including input gain, output level and low latency monitoring. Element Control Mobile App provides wireless remote control of hardware via iPhone, iPad or iPod touch. Works with Apogee Control – Optional desktop hardware remote control (Sold separately). Multi-unit Thunderbolt support.

Element 88	APO0059	RRP: £1,249.17
------------	---------	----------------

Duet

Duet

Apogee Duet sets the industry standard for portable professional audio recording on Mac, PC and iPad. Made for the musician, producer and engineer that wants the ultimate sound quality and elegant simplicity, Duet features legendary Apogee AD/DA conversion, 2 world-class microphone preamps, USB MIDI I/O and ESS Sabre32 DAC technology.

Duet	APO0008	RRP: £524.17
------	---------	--------------

Hardware Controllers

Apogee Control

Hardware remote control accessory designed for the Element Series and Symphony I/O Mk II interfaces. Access to input and output levels using the large Symphony-inspired Control knob and 3 control knob focus buttons, plus immediate access to a wide range of functions using the 8 user-configurable buttons.

Apogee Control	APO0060	RRP: £157.50
----------------	---------	--------------

HypeMiC

HypeMiC

Make Recording Magic Happen with HypeMiC Ever wonder how your favorite recordings seem to leap from the speaker, with vocals that magically float above even a dense background track? That's compression. HypeMiC features studio-quality analog compression that's easy to use and brings the magic to your vocals, voice-overs, instruments, percussion, and podcasts - anything you record! With HypeMiC and your iPhone or computer, you can make amazing recordings on the go. What Can You Do With HypeMiC Music...

HypeMiC	APO0093	RRP: £290.83
---------	---------	--------------

Quartet

Quartet

Desktop audio interface and studio control centre for professional recording on Mac, PC and iOS. 4 x analog input, 8 x analog output, 8 x digital inputs. USB 2.0 High Speed connection. Direct digital connection with iOS devices. AD/DA conversion up to 24 bit/192kHz, 4 x world-class microphone preamps, USB MIDI I/O, ESS Sabre32 DAC technology and monitor controls. Control up to 3 pairs of speakers or monitor in 5.1. DC power supply included.

Quartet	APO0009	RRP: £1,207.50
---------	---------	----------------

ONE

ONE for Mac & PC

Apogee ONE is an all-in-one portable, USB audio interface that gives you everything you need to make professional recordings on the go. Connect a microphone, guitar or use ONE's exceptional built-in omnidirectional microphone to easily capture your music without compromise. ONE even lets you record with a microphone (built-in or external) and guitar simultaneously. Using Apogee's industry-leading AD/DA conversion and mic preamp technology, ONE produces pristine music, podcast, and voice-over recordings while also delivering studio quality sound to your headphones for precision mixing or hi-fi listening. With an intuitive controller knob and seamless compatibility with Mac OS X, ONE is easy for anyone to use and works great with GarageBand, Logic Pro X, Pro Tools, Ableton or any Core Audio compatible application.

ONE for Mac	APO0007	RRP: £232.50
