

Cinema

QLI-32

The QLI-32 is an intelligent and flexible cinema processor, which delivers up to 32 channels of surround sound from a 7.1, 5.1 or stereo source at a fraction of the cost of existing technology. It is designed to integrate into existing cinema systems; features include flexible location for height channels, 8 channel analogue input, 8 channel AES input and BLU link input/output. Control is via ethernet and a web browser-based interface.

QLI-32	LEX0063	RRP: £6,000.00
--------	---------	----------------

BOB-32

Breakout box for the Lexicon QLI-32. Converts up to 32 channels of BLU Link to analogue audio. Easily configured by 6 DIP switches on the rear of the device. 4 DB25F connectors. 256 channels at 48kHz or 128 channels at 96kHz. Clear front panel LED indication. 1U rack chassis.

BOB-32	LEX0064	RRP: £1,700.00
--------	---------	----------------

PCM96 Surround AES Only

Surround version of the PCM96 with dual engine operation, more configuration options and more I/O. 50 reverbs, delays and modulation effects. Surround sound algorithms. Parallel and stereo configurations. Hardware Plug-in feature. This version features 6 XLR AES digital outputs.

PCM96 Surround AES Only	LEX0034	RRP: £3,332.50
-------------------------	---------	----------------

PCM96 Surround Analogue & AES

Surround version of the PCM96 with dual engine operation, more configuration options and more I/O. 50 reverbs, delays and modulation effects. Surround sound algorithms. Parallel and stereo configurations. "Hardware Plug-in" feature. This version features 6-channel analogue and 6-channel digital.

PCM96 Surround Analogue & AES	LEX0033	RRP: £3,499.17
-------------------------------	---------	----------------

Effects Processors

PCM Series

PCM92

Stereo reverb and effects processor. 28 legendary reverbs, delay and modulation effects including new chamber, hall and plate reverbs. Analogue and AES/EBU I/O, MIDI, Wordclock. HiQNet control over ethernet.

PCM92	LEX0038	RRP: £1,665.83
-------	---------	----------------

PCM96

Stereo reverb and effects processor. 28 legendary reverbs, delay and modulation effects including new chamber, hall and plate reverbs. "Hardware Plug-in" feature with Mac VST and AU software and DAW automation. Analogue and AES/EBU I/O, MIDI, Wordclock, Ethernet and Firewire connectivity.

PCM96	LEX0013	RRP: £2,249.17
