

Cinema

QLI-32

The QLI-32 is an intelligent and flexible cinema processor, which delivers up to 32 channels of surround sound from a 7.1, 5.1 or stereo source at a fraction of the cost of existing technology. It is designed to integrate into existing cinema systems; features include flexible location for height channels, 8 channel analogue input, 8 channel AES input and BLU link input/output. Control is via ethernet and a web browser-based interface.

QLI-32	LEX0063	RRP: £6,000.00
--------	---------	----------------

BOB-32

Breakout box for the Lexicon QLI-32. Converts up to 32 channels of BLU Link to analogue audio. Easily configured by 6 DIP switches on the rear of the device. 4 DB25F connectors. 256 channels at 48kHz or 128 channels at 96kHz. Clear front panel LED indication. 1U rack chassis.

BOB-32	LEX0064	RRP: £1,700.00
--------	---------	----------------

Effects Processors

PCM Series

PCM92

Stereo reverb and effects processor. 28 legendary reverbs, delay and modulation effects including new chamber, hall and plate reverbs. Analogue and AES/EBU I/O, MIDI, Wordclock. HiQNet control over ethernet.

PCM92	LEX0038	RRP: £1,499.17
-------	---------	----------------

PCM96

Stereo reverb and effects processor. 28 legendary reverbs, delay and modulation effects including new chamber, hall and plate reverbs. "Hardware Plug-in" feature with Mac VST and AU software and DAW automation. Analogue and AES/EBU I/O, MIDI, Wordclock, Ethernet and Firewire connectivity.

PCM96	LEX0013	RRP: £2,249.17
-------	---------	----------------

PCM96 Surround Analogue & AES

Surround version of the PCM96 with dual engine operation, more configuration options and more I/O. 50 reverbs, delays and modulation effects. Surround sound algorithms. Parallel and stereo configurations. "Hardware Plug-in" feature. This version features 6-channel analogue and 6-channel digital.

PCM96 Surround Analogue & AES	LEX0033	RRP: £3,165.83
-------------------------------	---------	----------------

MX Series

MX200

24-bit, 48kHz multi effects processor. 16 Lexicon reverbs, Lexicon delays and modulation effects. dbx dynamics. Dual processor design with four routing configurations. USB Hardware Plug-in feature with VST and AU software. MX-Edit editor/librarian software. S/PDIF digital input/output.

MX200	LEX0030	RRP: £149.17
-------	---------	--------------

MX300

Multi effects processor with 2-in, 2-out configuration. 16 Lexicon reverbs, Lexicon delays and modulation effects. dbx dynamics and de-essing. USB Hardware Plug-in feature with VST and AU software. MX-Edit editor/librarian software. XLR and TRS analogue and S/PDIF digital input/output.

MX300	LEX0027	RRP: £224.17
-------	---------	--------------

MX400

Multi effects processor. Quad processor design. 17 Lexicon reverbs, Lexicon delays and modulation effects. dbx dynamics and de-essing. USB Hardware Plug-in feature with VST and AU software. MX-Edit editor/librarian software. TRS analogue and S/PDIF digital input/output. MX400 has TRS connectors, MX400XL has XLR I/O.

MX400	LEX0024	RRP: £257.50
-------	---------	--------------

MX400XL	LEX0025	RRP: £282.50
---------	---------	--------------

Plug-Ins

PCM Total Bundle

14 sonically brilliant Lexicon effects, combining the PCM Native Reverb Bundle and the PCM Native Effects Bundles with hundreds of versatile presets. Works seamlessly in any VST, AU or RTAS compatible host. Requires an iLok2 for authorisation.

PCM Total Bundle	LEX0041	RRP: £724.17
------------------	---------	--------------

PCM Native Reverb Plug-In Bundle

VST / Audio Unit / RTAS Software Reverb Plug-in. 7 Lexicon reverbs, hundreds of brilliantly crafted studio presets. Multi-platform compatibility. Graphical real-time display. Visual EQ section for easy adjustment of both early and late reflections. Full parameter control and automation. Input and output meters for quick assessment of audio levels going to and from the reverb. iLok2 authorized.

PCM Native Reverb Plug-In Bundle	LEX0039	RRP: £432.50
----------------------------------	---------	--------------

PCM Native Effects Plug-In Bundle

VST / Audio Unit / RTAS software reverb plug-in. Includes Dual Delay, Random Delay, Chorus/Flange, Resonant Chords, Pitchshift and Multivoice Pitch shift effects from the PCM96 hardware processors and an all-new Stringbox algorithm. iLok2 authorized.

PCM Native Effects Plug-In Bundle	LEX0042	RRP: £357.50
-----------------------------------	---------	--------------

LXP Native Reverb Plug-In Bundle

VST / Audio Unit / RTAS software reverb plug-in. 4 Lexicon reverbs, 200 presets. Multi-platform compatibility. Graphical real-time display. Visual EQ section for easy adjustment of both early and late reflections. Full parameter control and automation. Input and output meters for quick assessment of audio levels going to and from the reverb. iLok2 authorized.

LXP Native Reverb Plug-In Bundle	LEX0040	RRP: £140.83
----------------------------------	---------	--------------

Recording Interfaces

Alpha Studio

2-input, 2-output USB audio interface. Low-noise mic preamp. Stereo line inputs. High -Z instrument input. Monitor mix control. USB Bus powered.

Alpha Studio	LEX0002	RRP: £45.83
--------------	---------	-------------

Lambda Studio

5-input, 2-output USB audio interface. Two low-noise mic preamps with +48V. Stereo line inputs. High -Z instrument input. TRS insert points. MIDI I/O. USB Bus powered.

Lambda Studio	LEX0022	RRP: £82.50
