

XL-Desk

XL-Desk

The Solid State Logic XL-Desk is a modern twist on the classic analogue studio console. It's designed for tracking or mixing engineers who require an analogue console within a DAW centric studio, but don't want or need the integrated DAW control and analogue level automation other SSL console products have made the new hybrid studio standard. XL-Desk is in many ways a traditional 24 into 8 analogue console but it packs in an incredible collection of features. It has 20 channel strips: 16 dual input and 4 stereo channels. The first eight channels have VHD mic pre's. There is an 18 slot 500 format rack built in that can be used for processing or mic pre's. XL-Desk ships with a legendary SSL Stereo Bus Compressor module as standard.

XL-Desk	SSL0086	RRP: £13,000.00

Nucleus 2

Nucleus2

Nucleus is a compact, portable desktop DAW controller with SuperAnalogue monitoring, analogue mic pres, 2+2 Dante interface. Up to 3 different DAWs can be connected simultaneously and switched between them with a single button push. HUI or MCU protocols ensures compatibility with all leading DAW applications including Pro Tools, Logic and Cubase/Nuendo. Two banks of 8 channel controls plus centre section controls. Touch sensitive 100mm motorised faders, digital Scribble Strips with assignable V-Pots and soft keys. Zero latency Rec monitoring with wet/dry control to balance input and DAW playback. Available in white or dark.

Nucleus2	SSL0093	RRP: £3,499.00
----------	---------	----------------

Nucleus2 Dark	SSL0094	RRP: £3,499.00
---------------	---------	----------------

Fusion

Fusion

Five all new analogue colouration tools. Add tone, weight and space to your mix. The detail, warmth and finesse of real analogue circuits. • Vintage Drive Unique non-linear harmonic saturation and soft compression brings cohesion and strength to your mix. • The SSL Violet EQ Intuitive 2-band mix bus EQ for instant low-end weight and high-end sheen. • HF Compressor Remove brittle high-end fizz with smooth harshness reduction and a tape-like high-frequency roll off. • Stereo Image A true analogue Mid-Side circuit for sculpting sumptuous width and space. • The SSL Transformer Low Frequency saturation and High Frequency phase shift add low-end substance and high-end sparkle. Give your mix the analogue edge it deserves.

Fusion	SSL0096	RRP: £1,499.00
--------	---------	----------------

Matrix 2

Matrix 2

Ultimate personal hybrid studio centre piece combines analogue summing, analogue router and DAW control. It is a 40 input summing console with 16 analogue line channels and 32x16x16 insert router for up to 16 external devices, stereo aux send with 4 mono sends per channel, 4 stereo returns and dual stereo mix busses. The hardware control features single button push flips control between the analogue signal path and DAW software, multi layer control of up to 4 DAWs simultaneously, digital scribble strips, 16 motorised faders, programmable hardware buttons, Total Recall, A-FADA or MIDI fader automation and ethernet MIDI connectivity. There is a cross platform remote browser for configuration with simple drag-and-drop insert routing.

Matrix 2	SSL0084	RRP: £13,000.00
----------	---------	-----------------

Sigma

Sigma Delta

Designed for the DAW user that seeks the legendary big sound of an SSL console while retaining the convenience of working in the box, Sigma Delta is a unique DAW automated SuperAnalogue summing engine. Advanced DAW automation driven SSL SuperAnalogue mix engine. Works with all major DAW's including Pro Tools, Logic, Cubase/Nuendo, Ableton Live. 16 flexible channels individually switchable between stereo or mono for up to 32 channels at mixdown. 2 stereo mix busses with individual stereo insert points. Independent Main and Alternate Monitor outputs. Direct outputs on all channels. Talkback facility with adjustable Dim level. Intuitive cross platform Remote Control app. Full MCU hardware control surface support. High speed External MIDI control via single Ethernet cable.

Sigma Delta	SSL0091	RRP: £3,279.00
-------------	---------	----------------

XLogic SuperAnalogue

X-Desk

Compact SuperAnalogue mixer. 8 dual input mono channels (16 channel mixdown), 8 insert send/returns. Stereo cue and 2 mono aux sends. Talkback, Dim and Cut. Main and Alternate outputs. Cascade with X-Rack and other X-Desks. 19" rack ears included.

X-Desk	SSL0049	RRP: £2,179.00
--------	---------	----------------

1U G Series Compressor

1U rack-mounted version of the SSL G Series console master bus compressor. It utilises the classic SSL G Series centre compressor design elements within a SuperAnalogue design topology. This brings the dual benefits of spectacular audio performance with a universally acclaimed compressor characteristic. Gain reduction meter as fitted to the classic SSL console range. External side chain source select. Auto fade with rate control automatic linear fade in/out control. Remote connector for remote operation of the auto fade function.

1U G Series Compressor	SSL0012	RRP: £2,729.00
------------------------	---------	----------------

X-Rack

X-Rack Chassis

Chassis for the X-Rack modular system. SuperAnalogue signal path with Total Recall™ capable of storing 32 snapshots. The 4U chassis includes power supply, MIDI I/O and Mix Bus Link port to enable multiple racks to be connected. Each X-Rack chassis holds up to eight modules in any configuration (not included).

X-Rack Chassis	SSL0057	RRP: £849.00
----------------	---------	--------------

X-Rack Stereo Dynamics Module

Stereo version of the powerful SSL channel dynamics. Independent Compressor/ Limiter and Expander/Gate circuits. secondary circuit functions as either a Noise Gate or an Expander. External key input.

X-Rack Stereo Dynamics Module	SSL0062	RRP: £869.00
-------------------------------	---------	--------------

X-Rack Stereo EQ Module

Stereo version of the XL9000K channel EQ as used on the Duality and AMW consoles. Selective Mode E and G switching. High and Low bands switchable between shelving and fixed Q bell curves. EQ IN switch.

X-Rack Stereo EQ Module	SSL0056	RRP: £869.00
-------------------------	---------	--------------

X-Rack E Series EQ Module

The legendary SSL 4000 E Series console channel EQ with its classic gritty tonal response. Switches between 'Brown' and 'Black' EQ response curves, each offering their own musical character.

X-Rack E Series EQ Module	SSL0038	RRP: £639.00
---------------------------	---------	--------------

X-Rack E Series Dynamics Module

The superb SSL4000 E Series console VCA channel dynamics with its unique sonic signature. Feature packed compressor & expander/gate processing with added flavour.

X-Rack E Series Dynamics Module	SSL0039	RRP: £639.00
---------------------------------	---------	--------------

X-Rack VHD Input Module

Warm and dirty alternative to the pure Mic Amp Module. A front end combining classic SSL character with Variable Harmonic Drive, delivering a time machine of overdrive characteristics.

X-Rack VHD Input Module	SSL0030	RRP: £679.00
-------------------------	---------	--------------

X-Rack Stereo Bus Compressor Module

The centre section compressor from the 1980's G-Series analogue console is an audio production legend. It is a simple unit with a simple purpose; it makes complete mixes sound bigger.

X-Rack Stereo Bus Compressor Module	SSL0029	RRP: £1,599.00
-------------------------------------	---------	----------------

X-Rack Mic Amp Module

Angelically pure and versatile input section with a choice of three separate input amplifiers; Mic amp, front panel Instrument input or Line input. Designed for transparency and versatility.

X-Rack Mic Amp Module	SSL0019	RRP: £639.00
-----------------------	---------	--------------

X-Rack Channel EQ Module

Classic SSL four-band parametric EQ. High and low-bands switchable between shelving or fixed Q bell curves and two mid-bands each with variable Q control.

X-Rack Channel EQ Module	SSL0022	RRP: £639.00
--------------------------	---------	--------------

X-Rack Dynamics Module

Designed to be the perfect level control tool kit for recording, the separate Compressor and Gate/Expander section is powerful, graceful and ideal for gentle and unobtrusive level control.

X-Rack Dynamics Module	SSL0017	RRP: £639.00
------------------------	---------	--------------

500 Format Modules

E-Series EQ Module for 500 format

The E-Series EQ Module for API 500 Series racks features two different EQ's found on editions of the console produced between 1979 and 1987. Each EQ has unique response curves and tonal character.

E-Series EQ Module for 500 format	SSL0075	RRP: £639.00
-----------------------------------	---------	--------------

E-Series Dynamics Module for 500 format

The E-Series Dynamics Module for API 500 Series racks reproduces the legendary sonic signature of the fully-flavored VCA channel dynamics section of the SL 4000 E console channel strip.

E-Series Dynamics Module for 500 format	SSL0074	RRP: £639.00
---	---------	--------------

Stereo Bus Compressor module for 500 format

The legendary sound of the SSL Stereo Bus Compressor has been glueing mixes together for 35+ years is now available for the 500 format rack. Legendary sonic character of SSL Stereo Bus Compression. Six ratio settings ranging from 1.5:1 to 20:1. Five release settings and Auto Release function.

Stereo Bus Compressor module for 500 format	SSL0083	RRP: £1,599.00
---	---------	----------------

VHD Pre module for 500 format racks

The VHD Preamp is an immensely versatile recording and processing device. It can deliver ultra clean SSL SuperAnalogue™ grade recordings but also features a switchable Variable Harmonic Drive (VHD) system using a 100% analogue signal path to generate rich harmonic distortion.

VHD Pre module	SSL0088	RRP: £429.00
----------------	---------	--------------

LMC+ module for 500 Format Racks

Enhanced version of the classic SSL Listen Mic Compressor from the legendary SL4000E console. Fixed attack and release curves ideal for use on ambient drums mics. SSL High Pass and Low Pass filters. Filters to compressor side chain feature. Wet/dry blend control. 'Scoop' button that phase inverts the wet signal. 'Split' button engages a bandpass subtraction mode.

LMC+ module for 500 Format Racks	SSL0089	RRP: £429.00
----------------------------------	---------	--------------

XLogic Alpha Analogue

Alpha Channel

SSL analogue channel processing for audio workstations. Pro mic preamp with line and instrument level switching. Studio class EQ, Filter and Limiter sections. Variable Harmonic Drive circuit. Built-in digital out.

Alpha Channel	SSL0011	RRP: £849.00
---------------	---------	--------------

Alpha VHD Pre

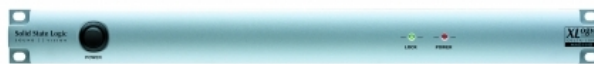

SSL four channel Mic Pre. Ultra-clean, high-grade mic preamps with line and instrument level switching. Four independent Variable Harmonic Drive (VHD) circuits. 100% analogue signal path.

Alpha VHD Pre	SSL0027	RRP: £1,149.00
---------------	---------	----------------

XLogic I/O

Delta Link MADI HD

The Delta-Link MADI HD is a professional 64 channel MADI to Pro Tools HD® interface for Studio, Live and Broadcast Applications. Enables interconnection of audio converters, digital consoles and routers to Pro Tools HD systems via Fibre Optic MADI. Compatible with Pro Tools HD Core and Accel Cards or HD Native and HDX Cards (HD Native and HDX cards require Digilink to Digilink Mini Adapter not supplied by SSL).

Delta Link MADI HD	SSL0005	RRP: £1,290.83
--------------------	---------	----------------

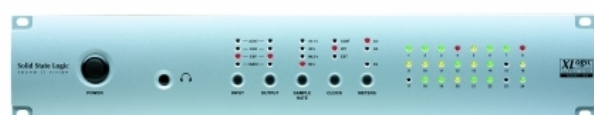

Alpha Link MADI SX

MADI to AES/EBU & AD DA converter. Features up to 64 channels of digital MADI I/O at 48kHz (or 32 channels at 96kHz), 12 stereo AES/EBU digital I/O and 24 analogue I/O.

Alpha Link MADI SX	SSL0004	RRP: £2,339.00
--------------------	---------	----------------

Alpha Link MADI AX

MADI to ADAT & AD DA converter. Features up to 64 channels of digital MADI I/O at 48kHz (or 32 channels at 96kHz), 24 ADAT Lightpipe digital inputs and outputs at up to 48kHz (12 ADAT Lightpipe digital inputs and outputs at up to 96kHz) and 24 analogue I/O.

Alpha Link MADI AX	SSL0003	RRP: £1,799.00
--------------------	---------	----------------

MADI Opti-Coax

Converter box designed to convert up to 64 audio channels bi-directionally (64 IN & 64 OUT) between the MADI Optical and MADI Coaxial formats. Its front panel is equipped with one set of MADI SC type optical input & output connectors and one set of MADI BNC coaxial input & output connectors.

MADI Opti-Coax	SSL0024	RRP: £429.00
----------------	---------	--------------

MadiXtreme

MadiXtreme 64

MADI digital audio interface. 56/64 channels. Half-length PCIe card. Optical MADI ports. Wordclock connector. DSP powered SSL processing plugins. Multi-client drivers and software mixer. Full automatic delay compensation for VST plugins and I/O.

MadiXtreme 64	SSL0035	RRP: £624.17
---------------	---------	--------------
